CONTEMPORARY HEROES

◆ **HUMANITAS** ◆
CONTEMPORARY HEROES

MENU

We talk about the characters who have influenced the contemporary pop culture in their most representative clothes. We do this by showing you the superheroes of our generations represented here in their most human contradictions. Talent, virtue and integrity. But also excesses, passions, defects and imperfections. All this tells the meaning of Humanitas, a cocktail menu inspired by a new humanity made of women and men like us, like you.
